

The SW300 is designed for use in telecommunication and power distribution applications where an uninterrupted load is switched. These contactors are primarily for use with Direct Current loads but can also be used with Alternating Currents.

Application	Uninterrupted		
hermal Current Rating (^I th)	300A		
ntermittent Current Rating:			
0% Duty	550A		
0% Duty	475A		
0% Duty	425A		
0% Duty	390A		
'0% Duty	360A		
Rated Fault Current Breaking Capacina accordance with UL508*)			
SW300	450A at 60V D.C.

Advised Connection Sizes for Ma			
	404mm2 [0.20imah2]		
Copper busbar Cable	194mm² [0.30inch²] Rated Suitable for Application		

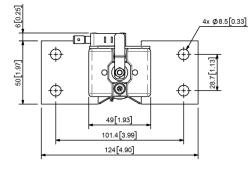

Uninterrupted current - no or infrequent load switching requirements (maintains a lower contact resistance).

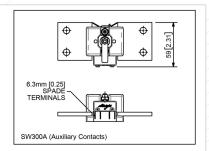

The SW300 features double breaking main contacts with silver alloy tips which are weld resistant, hard wearing and have excellent conductivity. Silver plating on the main contacts is standard for the SW300, however optionally it can be excluded from the specification. The SW300 is a compact contactor which can be busbar mounted vertically or horizontally, if mounted vertically the coil should be at the bottom.

SW300

OPTIONAL 6.3mm [0.25] SPADE TERMINALS FOR AUXILIARY CONTACT CONNECTIONS
