

ED1200 Single Pole Single Throw On/Off (Part of the Emergency/Combined Disconnect Series)

The ED1200 range of switches have been designed to provide a rapid means of disconnecting batteries or other power supplies in the event of serious electrical faults. Designed for use with uninterrupted high current battery powered systems such as those found in Telecommunication Power Distribution Units, all types are capable of safely rupturing full load battery currents in the event of an emergency.

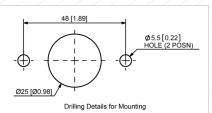

12008

Uninterrupted current - no or infrequent load switching requirements (maintains a lower contact resistance). •

The ED1200 is a manually operated device with a snap action for both opening and closing of the main contacts. They have paralleled double breaking contacts with silver alloy tips which are weld resistant, hard wearing and have excellent conductivity. The ED1200 is easy to install (see drilling details) and can be mounted using the main terminal busbars or secured with supplied M5 posidrive mounting screws on the frame of the device.

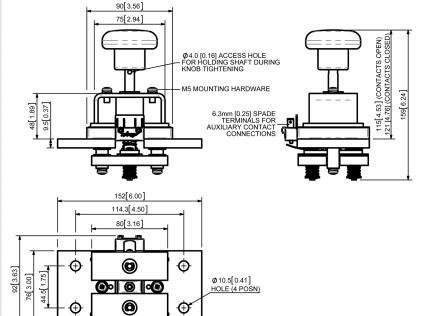

## Precautions:

The switch is to be used to rupture current in an emergency or as a no-load isolator. Do not use as a regular On-Load Switching Device.

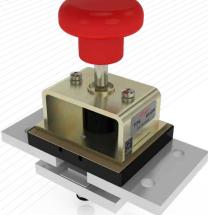

## **Drilling Details for Mounting**

Application	Uninterrupted			
Thermal Current Rating ( <sup>/</sup> th)	1200A			
Intermittent Current Rating:				
30% Duty	2190A			
40% Duty	1895A			
50% Duty	1695A			
60% Duty	1550A			
70% Duty	1435A			
Rated Fault Current Breaking Capacity ( <sup>/</sup> cn) Resistive Load: ( <i>in accordance with UL508</i> *)				
ED1200	1800A at 60v D.C.			
Maximum Recommended Contact Voltages (U <sub>e</sub> ):				
ED1200	60V D.C.			
Typical Voltage Drop per pole across New Contacts at 1200A	50mV			
Mechanical Durability	>10,000 Cycles			
Operating Ambient Temperature	- 40°C to + 60°C			
Guideline Contactor Weight:				
ED1200	2000 gms			
Advised Connection Sizes for Maximum Continuous Current				
Copper busbar	722mm <sup>2</sup> [1.12 inch <sup>2</sup> ]			
Key: 🖌 = Uninterrupted				
Note: Where applicable values show	vn are at 20°C			
* Please check our web site for prod	luct UL status
