

The SW802 is a single pole double throw contactor designed for use in telecommunication and power distribution applications where an uninterrupted load is switched. These contactors are primarily for use with Direct Current loads but can also be used with Alternating Currents.

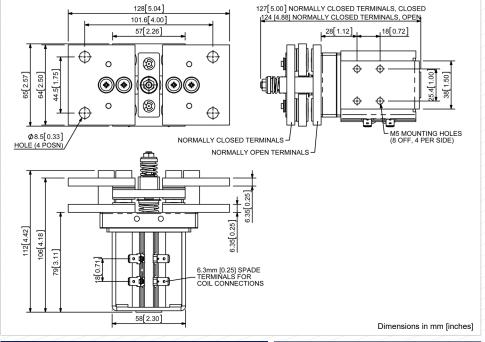

Direct Current loads but can also be used with Alt	
Application	Uninterrupted
Thermal Current Rating (^I th)	800A
Intermittent Current Rating:	
30% Duty	1460A
10% Duty	1265A
50% Duty	1130A
60% Duty	1035A
70% Duty	955A
Rated Fault Current Breaking Capac (in accordance with UL508*)	ity (^I cn) Resistive Load:
SW802	1200A at 60V D.C.
Maximum Recommended Contact V	oltages (U _e):
SW802	60V D.C.
Typical Voltage Drop per pole across	New Contacts at 800A:
Normally Open	50mV
Normally Closed	60mV
Mechanical Durability	>1 x 10 ⁶ Cycles
Coil Voltage Available (U _S) Rectifier board required for A.C.)	From 6 to 240V A.C./D.C.
Coil Power Dissipation:	
Highly Intermittent Rated Types	60 - 90 Watts
ntermittently Rated Types	40 - 60 Watts
Prolonged Rated Types	35 - 45 Watts
Continuously Rated Types	25 - 35 Watts
Maximum Pull-In Voltage (Coil at 20°	C) Guideline:
Highly Intermittent Rated types Max 25% Duty Cycle)	60% U _S
ntermittently Rated types Max 70% Duty Cycle)	60% U _s
Prolonged Operation Max 90% Duty Cycle)	60% U _s
Continuously Rated Types 100% Duty Cycle)	66% U _s
Orop-Out Voltage Range	10 - 30% U _s
Typical Pull-In Time N/O Contacts to Close):	40ms
Typical Drop-Out Time (N/O Contact	
Nithout Suppression	10ms
With Diode Suppression	100ms
Nith Diode and Resistor Subject to resistance value)	30ms
Main Contact Change over time (mill	iseconds):
Normally Closed to Normally Open	<50ms
Normally Open to Normally Closed	<40ms
Typical Contact Bounce Period	< 5ms
Operating Ambient Temperature	- 40°C to + 60°C
Guideline Contactor Weight:	
SW802	1900 gms
Advised Connection Sizes for Max	kimum Continuous Current
Copper busbar	516mm² [0.8inch²]
Cable	Rated suitable for Application
Key:	

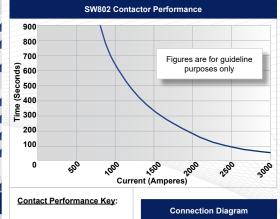

Uninterrupted current - no or infrequent load switching requirements (maintains lower contact resistance).

The SW802 features double breaking main contacts with silver alloy tips which are weld resistant, hard wearing and have excellent conductivity. Silver plating on the main contacts is standard for the SW802, however, optionally it can be excluded from the specification. This compact contactor can be busbar mounted vertically or horizontally, but if mounted vertically, the coil should be at the bottom. If the coil is required at the top, we can adjust the contactor to compensate for this. Optional extras include auxiliary switches, brackets, coil finishes and magnetic latching which allows the contactor to remain closed while consuming no coil power.
