## REACH Regulation(EC) No 1907/2006

### Certificate on the presence of SVHC

Albright understand their obligation as part of our commitment to REACH Regulation (EC) No 1907/2006 and as per Article 33 are working with suppliers to ensure products supplied are evaluated and assessed to ensure substance listed on the latest candidate list (as published and updated by ECHA 5th November 2025) in a concentration above 0,1%, or on the authorisation list, are identified.

Based on information received from the supply chain there are no substances on the authorisation list (Annex XIV) contained within articles/complex articles supplied. However, in the event of any substance added to this list in the future, which are contained within articles/complex articles, Albright will inform our customers.

Lead (CAS No. 7439-92-1, EC No. 231-100-4), included (27 June 2018) on the Candidate List (SVHC), is currently contained above 0.1% within complex articles supplied.

Triphenyl Phosphate (CAS No. 115-86-6, EC No. 204-112-2), included (7th November 2024) on the Candidate List (SVHC), may be contained between 8-10% for products supplied within the SW80P series.

Bis( $\alpha,\alpha$ -dimethylbenzyl) peroxide (also known as DCP, CAS No. 80-43-3, EC No. 201-279-3), included (27th June 2024) on the Candidate List (SVHC), may be contained up to 0.6% for products supplied within the SW60 and SU60 series.

Albright will continue to work with our suppliers to ensure compliance with future candidate lists as they are published by ECHA.
